CABINETS

Create Your Story

PRODUCT CATALOG 2024

# Make yourself at home.

Is there a room in the house that holds more life than the kitchen? It's the dinnertime gathering spot, party place, quiet refuge, late night hang-out, homework center, conference room, and kid's corner. So how do you go about creating your home's center of attention? By imagining all the wonderful stories it will tell.

#### CABINETS ARE YOUR CANVAS.

Modern? Transitional? Classic? Cabinets are the foundation for a beautiful kitchen. Enjoy trying on infinite shades and styles.

#### INVEST IN YOUR WISH LIST.

An island workspace or added storage—or both? It's smart to add these elements now. They'll hold your attention—and their value.

#### LANDING ON A LOOK YOU'LL LOVE.

Gather images, room pics, and colors that catch your eye. You'll start to see similarities that will set your path.

#### BUILDING DREAM KITCHENS STARTS HERE.

When you team up with Timberlake, you benefit from years of experience and refinement. Designed to last and built with care, our cabinets offer quality, style, and value you can believe in.

#### FOCUS ON FUNCTIONALITY.

Beyond visual elements, think through how you'll use your space. Consider storage, food prep, children, pets, and entertaining.

**Life happens here.**

## Trend Watch

### WOOD GRAIN

Wood grain in cabinetry brings a cozy, rustic vibe that never goes out of style. It's like bringing a piece of nature right into your spaces, with each grain telling its own little story. Whether you're into sleek modern looks or prefer something more traditional, wood grain fits right in, adding warmth and character to any room. It's that touch of nature that makes your spaces feel cozy and inviting.

MAPLE ALMOND

# The magic of Almond.

## A warm embrace for your space.

Imagine entering a room that feels like a warm hug, where every corner whispers comfort and style. That's the magic of Maple Almond! With its inviting warmth and subtle sophistication, this natural stain transforms your spaces into sanctuaries of tranquility and charm. Whether your space is sleek and modern or filled with eclectic charm, Maple Almond effortlessly blends in, adding depth and character to every nook and cranny.

# Built-in bliss.

## Where functionality meets fabulous.

Home built-ins aren't just storage—they're game-changers! Customized to fit your spaces perfectly, they declutter while adding serious style points. They blend seamlessly with any decor, making the most of every inch and giving your space that extra wow factor. Whether it's about crafting cozy spaces or showcasing personal treasures, built-ins are the key ingredient to giving homes that warm, welcoming feeling.

# Modern

## Crisp, clean, and chic.

Stunning in its sleek lines, modern cabinetry puts sophistication first. Subdued minimalism can set a tailored metropolitan aesthetic or take on a pristine Eurostyle influence. The simplicity of Shaker-style doors can bring an inviting warmth, even easing toward a fresh modern farmhouse look with details like more rustic hardware and a farmhouse sink.

## Less is More

Streamlined and uncomplicated, modern design uses limited embellishments. It celebrates open space, angles, and has a strong architectural energy.

### BOLD PAINT TRENDS

Painted cabinetry in whites and greys is a fresh, airy choice. The punch of a second color—like navy—is a bold trend.

### NATURAL WOOD TONES

Natural wood is often a key element, either as the lead or an accent.

### CONTINUING CLEAN LINES

The uncluttered modern look extends to every element of the cabinetry. A flat-front drawer, called a slab drawer, pairs with modern style.

### UNADORNED BEAUTY

Let the natural appeal of the elements shine through. Use accessories and details to highlight it.

### ARCHITECTURAL IMPACT

Stacked cabinets build architectural impact and crown moldings are generally simpler or may not be used at all.

### SHOW OFF SIGNATURE PIECES

Consider glass doors or open shelves for the modern kitchen. For a modern farmhouse, doors with mullioned frames add charm.

# New Haven

PORTFOLIO SELECT SERIES

With its wide Mission-style framing, New Haven's profile brings a casual upscale ease to a space. It's a handsome backdrop for a metropolitan minimalist vibe. Or use the clean lines to create a spacious and airy appeal.

# Transitional

## You can have it all.

A little bit traditional, a little bit modern. Transitional style lets you be you. A touch of woodwork detailing creates visual interest that's a foundation for your imagination. A daring pop of contemporary color with a vintage look furniture-style island? You can do that. Open shelves or glass doors? You choose one—or maybe both. All the possibilities are there to be put together with a relaxed personal flair.

MADDOX MAPLE ALMOND

## Balanced Blend

Transitional design is the choice that adapts, blends, and pulls together pieces across styles. You create the balance for a one-of-a-kind look all your own.

### CUSTOMIZED DETAILS

Woodworking details, such as beveling, mitered corners, and routing are understated but unmistakable.

### SUBTLE BUT IMPACTFUL

The clean, sleek profile of a recessed panel provides subtle visual interest and flexibility when it comes to design.

### ALL ABOUT SIGHTLINES

For a more modern vibe, think pristine lines, like slab drawers. For a more classic aesthetic, consider furniture-style legs on an island or furniture feet on cabinetry.

### PAINTED PAIRINGS

Pairing two shades of wood stain or paint can define different zones in a space. Two tones can also be used to create design drama.

### ACCENTUATE YOUR LOOK

Range hoods—in styles from simple tapered to graceful valanced designs—can accentuate a look.

### ROOM ACCENTS

Transitional welcomes a medley of room accents, from colorful dishware to treasured mementos. Open shelving or glass doors put them on display.

FAIRFIELD TRUFFLE

# Classic

## All the details, all the time.

Embellishments, layering, and detailing are defining characteristics of classic design. This cabinetry puts the focus on more intricate artisan woodworking. The classic approach can lend itself to warm and intimate spaces, even to a countryside feel. Or, with the more elegant enhancements, it can create a mood of dignified refinement or the ambiance of distinguished luxury.

## In a Word, Timeless

Classic style is about polished indulgence. It begins with the richly sculpted cabinet doors and drawer fronts, and it continues with a palette of accents to complete the look.

### PERSONALIZED TOUCHES

Displayed in glass cabinets or on open shelves, your keepsakes personalize the classic look.

### SETTING THE MOOD

Furniture-like additions set the classic mood. Consider decorative legs on islands, feet on base cabinets.

### DECORATIVE ACCENTS

Decorative crown molding and corbels are integral additions. Stacking multiple layers of complementary crown molding elevates the look.

### STAINS AND PAINTS

Natural wood stains are a prime choice for classic style, though painted looks are a handsome alternative.

### SILHOUETTE IS THE STORY

Waterfall edges, beaded edges, beveling, miters, and grooving are trademarks of a classic styled door.

### CUSTOM-LOOKS

A custom-look built-in furniture piece can be the centerpiece of a lux room. For example, a grand wine bar can be created with a wine rack cabinet, stem glass holder, and glass doors for display.

### Possibilities at Your Fingertips

ADD THE FINISHING TOUCHES THAT ARE ALL YOU

A shape, a contour, a sheen. Handles, pulls, and knobs are the little things that say so much about design. Complement a look, or add a spark of surprise.

### Crown Molding is High Impact

REACH NEW HEIGHTS

Finish the top of your cabinetry with a matching style of molding or a stack of complementary styles. It adds height to the room and enhances the overall look.

# The details that make all the difference.

## 10 options to accentuate your design.

Timberlake offers a great value, allowing you to spend more on options that personalize your kitchen for a custom feel. From modifications to decorative accents, these unique touches add convenience and beauty to any space.

**01 TURN UP THE COLOR**

Two tones of cabinetry can define areas, provide visual interest, or add a burst of personality.

**02 CREATE YOUR NICHE**

A drawer base cabinet and staggered upper cabinet depths form an attractive nook with lots of storage built in.

**03 SPOTLIGHT THE RANGE**

A stylish range hood completes your design—the centerpiece of a great kitchen.

**04 CROWNING GLORY**

Crown molding is the detail that transforms blank space to finished perfection.

**05 BEAUTIFULLY FURNISHED**

Decorative legs on islands and other furniture-like details are handsome designer elements.

**06 SHOW OFF YOUR STYLE**

Glass door inserts let you display your favorite treasures and add a light airiness to the room.

**07 HIGH PRIORITY STORAGE**

An increased-depth cabinet over the fridge means more accessible space and provides a built in look.

**08 STYLIZE EVERY SURFACE**

Use decorative doors to finish off a run of cabinets with a furniture look.

**09 JUST-RIGHT LIGHT**

With light rail molding, the under-cabinet task lighting you love stays out of sight.

**10 HARDWARE MAGIC**

Like jewelry for your cabinets, the choice of hardware can take a design in many directions.

## Construction options add lasting value

### CUSHIONCLOSE

No more noisy slamming doors, drawers and roll-outs. Cushion close technology provides smooth and quiet operation.

### ALL PLYWOOD CONSTRUCTION

This upgraded construction for cabinet sides, shelves, cabinet backs, toe kicks and hanging rails is the ultimate choice in durability and stability.

### FULL EXTENSION GLIDES

Now it's easy to reach all the way to the back of a 21-inch drawer. Glides handle the weight of heavy loads and slide with ease.

### FURNITURE END CONSTRUCTION

For cabinets with exposed ends, this flush look uses 3/4" thick plywood with matching wood veneer to give cabinets the finished look of fine furniture.

It's a beautiful fact of nature: no two pieces of wood are exactly alike.

# It's important to understand what to expect. Even wood from the same tree shows variations, which contributes to the beauty and distinction of fine cabinetry.

## Natural Factors

The following characteristics are natural and are not considered defects:

- Naturally occurring color, grain, and texture differences
- Color deviations, even within the same section of wood
- Differences between open and closed-grain areas
- Visible mineral streaks

Just as wood naturally expands and contracts, so do door joints. Periodically, you may see hairline cracks in the finish surface at the joints. These are normal and do not affect the integrity of the door.

## Care & Cleaning

Your cabinetry is extremely resistant to stains and surface damage that can be caused by common household items. However, to further protect the original factory finish:

- Wipe up spills immediately using a clean cloth and mild soaps
- Dust your cabinets periodically using a soft, slightly dampened, lint-free cloth
- Read all cabinet care guidelines and cleaning product instructions carefully

## Environmental Factors

Cabinetry added at a later date may not match the original cabinets installed and samples may no longer have a true color representation. This may be due to:

- Exposure to sunlight, smoke, and chemicals
- Change in door samples or displays due to age

Because of environmental factors, Timberlake is not responsible for texture differences or color and wood grain variations in materials used in your cabinets.

## The Materials

### 01 CHERRY

Cherry, a closed-grain, uniform-texture hardwood, shows distinctive curly figures and pin knots. Natural pale-yellow sapwood to reddish-brown heartwood darkens over time. It's attractive in a deep stain.

### 02 MAPLE

Maple is an extremely hard wood with a fine, even texture. Color can be light to cream-colored. Its uniform straight grain may show wavy, bird's eye, or burl graining. Popular for its durability and luster.

### 03 DURAFORM

Duraform uses advanced manufacturing to bond foils and coatings to medium-density fiberboard, high-density fiberboard, and similar materials for exceptional stability, consistency, and durability.

### 04 PAINTED

Painted finishes combine hardwoods and engineered materials for stability, consistency, and durability, with minimal grain visibility. Joint lines may appear due to the wood's natural expansion and contraction.

### 05 HARDWOOD

Hardwoods include dense-structured maple, oak, birch, cherry, hickory, poplar, and ash. Color ranges from light blonde to dark reddish-brown. Variations of graining, color, and mineral streaks are natural.

### 06 THERMOFOIL

Thermofoil is a process that bonds a thick vinyl film to a warp-resistant engineered wood core. Because color is throughout the film, the surface is durable, easy-clean, and resistant to chipping and cracking.
