The Timberlake® Advantage

Built by Service®

We think like builders. That means looking for ways to contribute to success by adding value, saving time, and eliminating costs. We’re planning ahead to prevent problems instead of fixing them. Designing to save money. Scheduling to make every minute count. Installing for one-trip satisfaction. We’re a partner every step of the way.

We focus on cabinets

That’s all we’ve done for the past three decades. When you team up with Timberlake, you benefit from years of experience and refinement. That means high-quality materials, craftsmanship, and service—start to finish.

Quality meets value

Origins by Timberlake showcases modern styling in an economical design offering. We make it easy to choose the perfect combination of features for your needs and budget.

Origins by Timberlake boasts three finely-crafted, designer-favorite door styles that combine style with affordability.
Ashburn

STAIN
The stain-finish options of the Ashburn collection add beautiful depth to any kitchen. The standard overlay and raised-panel silhouette of this door style, in Cider or Sienna, is a rich look that will bring your kitchen to life.

ASHBURN WHITE

THERMOFOIL
Fresh and sunny, Ashburn White makes any kitchen feel larger and more open. Use it for a timeless, neutral look or the backdrop for pops of color. The clean lines of this Ashburn full overlay door complement many kitchen styles, and the durable thermofoil finish means the look you love will last for years.

#### Toe Kick Dimensions

Illustrations specify dimensions of vertical stiles and horizontal rails, inset toe kick, and standard interior opening heights.
OVERLAY DIMENSIONS

These illustrations specify the relationship between the cabinet face frame and standard overlay or full overlay doors. They show the amount of the cabinet face frame that is visible when standard overlay or full overlay doors are selected.

**Full Overlay**

Full overlay doors are sized to cover nearly all of the cabinet face frame. Full overlay door styles require decorative hardware. To facilitate proper door operation, include at least a 1” filler between the hinged side of full overlay door styles and deeper adjacent objects including cabinets, walls, appliances, and countertops.

**Standard Overlay**

Standard overlay doors are sized to show about an inch of the cabinet face frame, giving the door some visual depth. Some door styles do not require decorative hardware.

CARE & CLEANING
While our laminate, staining, and wood finishing processes promote durability, care should be taken to preserve the original factory finish:

• Wipe up spills immediately
• Use mild soaps only
• Be sure to read all cabinet care guidelines and cleaning product instructions carefully

Use a touch-up stick to fill any scratches or nicks and remove excess residue, leaving a smooth surface. Touch-up sticks are available by calling Timberlake Customer Care at 800-967-9674.

CHOOSE YOUR MATERIAL

HARDWOOD
Hardwood cabinetry has a dense structure and comes from a combination of deciduous trees such as maple, oak, beech, birch, cherry, hickory, poplar, or ash. Natural colors range from light blonde to dark reddish-brown tones. These hardwoods may contain mineral streaks, slight differences in graining, and color variations.

THERMOFOIL
Thermofoil is a process whereby a thick vinyl film is bonded permanently to a warp-resistant engineered wood core. Because the color is consistent throughout the film, the surface is durable, easy to clean, and resistant to chipping and cracking.
